

# RECTANGULAR SLIDE GATE DAMPER

## Application:

- Use for tight shut-off or balancing of an airstream or material handling system
- Sizes ranging up to 48" long side dimension
- Pressure: up to 50 inWC

## Features:

- Flanged inlet and outlet connections with tapped holes
- Tight-sealing, positive-stop, polished blade
- Seal blade with locking bolts
- Can be fitted with optional jack-screw, manual lever, or pneumatic actuator
- Available in stainless steels or painted carbon steel

## Benefits:

- Short flange to flange connection
- Duct can be disconnected on one side to leave branch isolated
- Simple, reliable, and easy to maintain
- Heavy-duty construction
