

# FAN INTAKE FILTER HOUSING

## Application:

- Use at the inlet of a fan to filter the ambient intake air
- Nominal capacities ranging from 2,000 to 32,000 cfm
- Holds 24"x24" filters, 1 high x 1 wide to 4 high x 4 wide

## Features:

- Flanged outlet connection
- Housing fabricated with stainless steels or painted carbon steel
- Support legs are field mounted to housing and anchor to floor

## Benefits:

- Simple, reliable, and easy to maintain
- Heavy-duty construction

## How it works:

- Filters slide in from top and are held by the vertical channels
