

# SLIDE-IN FILTER BANK

## Application:

- Use in an airstream where it is important not to interrupt the system operation while filters are replaced
- Nominal capacities ranging from 2,000 to 32,000 cfm
- Holds 24"x24" filters, 1 high x 1 wide to 4 high x 4 wide
- Operating pressure: up to 30 inWC

## Features:

- Flanged inlet and outlet connections
- Housing fabricated with stainless steels or painted carbon steel

## Benefits:

- Simple, reliable, and easy to maintain
- Heavy-duty construction

## How it works:

- With doors open on each end of row of filters, push new filters in from one side while the spent filters come out the other side
